EXPERIENCE

RIVIAN
Product Designer
Jul 2021 – Aug 2022

Owned the end-to-end design of critical supply chain software, enabling suppliers to work better with Rivian.

Distilled complex needs from many different stakeholders (logistics, transportation, quality, domestic and international suppliers) to create a compelling and easy to use part quality management module, completely replacing a third-party product.

CISCO – WEBEX
Product Designer
Feb 2020 – Jul 2021

Design lead on Webex bots and integrations (Miro, Mural, PagerDuty), from concept to implementation.

Created a framework for future deep integrations in Webex to encourage user adoption.

CISCO – CLOUD & COMPUTE
UX Designer
Jan 2019 – Jan 2020

Led the design of app deployment software (Cisco Container Platform), working with PMs & engineers new to UX support to drive user centered design.

Designed core features for cloud cost analytics software; Created dynamic data visualizations with multi-variable data to provide actionable insights.

MASTERCARD CAPSTONE PROJECT
Team Lead
Jan 2018 – Aug 2018

Developed a comprehensive website containing design guidelines for Continuous Authentication, intended to support Mastercard designers when the technology rolls out in the next 3-5 years.

EZSIGMA GROUP
Manager, Marketing & Operations
Nov 2013 – Aug 2016

Spearheaded the overhaul of company website; improved layout and content while effectively managing a team of 4.
